Killing 2829 victims Syrian citizens were killed; including 658 armed rebel, 2171 civilian, 307 children, and 122 tortured to death including 2 media activists and children.

The daily average of killing this month was 92 people a day, 4 people an hour. Among the 2171 civilians [SNHR](#) documented:

307 children victims with an average of 10 children a day , and the proportion of the children killed to the death toll is 14% ,which is a very high rate and strict evidence that the Government Forces targeting the civilians.

181 female victims with an average of 5 women a day , and the proportion of the children killed to the death toll is 8%, which is a very high rate and strict evidence that the Government Forces targeting the civilians.

122 victims tortured to death with an average of 7 victims a day tortured to death in formal and informal detention centers.

The proportion of killed women, children and torturing to death victims is 28%, This clearly shows the invalidity of the Syrian government's claims that it is fighting al-Qaeda, extremists and terrorists.

[SNHR](#) would like to indicate that what we could document by our deployed members in all of the Syrian provinces classified by names date and place, photo or video.

We couldn't document many cases of massacres and killing for many reasons including procedures repeatedly and systematically made by Syrian Government's Armed Forces like communications disconnect and blockade areas for many days, that's make the actual number more than that, not to mention that the Syrian government has prevented any of the human right organization to perform their duty on its territory

It should be mentioned that work mechanism of Syrian Network for Human Rights' Group bases on precise verification and documentation method, and on our members who deployed on the Syrian territory to gather facts and take written testimonies, live images and videos, oral and registered interviews audio and video interviews so as to complement the efforts exerted to document human rights violations under the restrictions imposed by the Syrian government on the network members or any other Human Rights organization to work on Syrian territory , the real number may exceed in dozens especially in case of massacres where they imposed blockage and communications cut

### **Legal conclusions:**

1- **SNHR** assured that Syrian Government's Armed Groups and Shabiha violated Provisions of Human Rights International Law which protect the right of life, in addition to dozens of cases considered as a war crimes ( murder cases ).

Undoubted Evidence of hundreds of eyewitness stories that more than 90% of expanded and individual attacks directed against civilians and that's all contrary to the Syrian Government's claims that they are fighting Al-Qaeda and terrorists

2- **SNHR** also indicates that the documented events are also crimes against humanity, where the condition of widespread and systematic direct attack against civilian population group in most cases of murder has been achieved

### **Condemnation and Responsibilities:**

responsibility of states for internationally wrongful acts , similarly Customary IHL provides that states that the state is responsible for all acts committed by a members of its military and security forces , thus the states is responsible of wrongful acts committed by its military and security forces including crimes against humanity.

**SNHR** holds the Syrian President Commander in Chief of the Syrian army, Bashar al-Assad, responsible for all acts of homicide, torture and massacres perpetrated in Syria as he holds the primary responsibility for giving the orders for these acts. **SNHR** considers all Syrian regime members and heads of the security and military bodies directly complicity in those acts. By the same token, **SNHR** considers the Iranian government and Hezbollah as direct partners in the acts of homicide who shall legally and judicially liable for those acts along with all those funding and supporting the Syrian regime which is systematically committing massacres on a daily basis. **SNHR** holds all the above mentioned parties responsible for all consequences and potential reactions from the Syrian people in general and the families of the victims in particular.
