The Syrian Network would like to point out that these statistics have  
been prepared by our members from various Syrian provinces. **SNHR**  
team has done its best and utilized all the available resources in or-  
der to authenticate and verify the detailed information including the  
full names, places and times. **SNHR** would like to emphasize that in  
many cases that members were unable to reach and document the  
incidents due to checkpoints by the regime's forces especially during  
the massacres, and due to disconnecting the telecommunications.  
Therefore, there is a big possibility of many names that are not docu-  
mented, and the documented victims list is likely to increase later.

Syrian Network  
For Human Rights  
الشبكة السورية لحقوق الإنسان

The Syrian Network for Human Rights (SNHR) strongly condemns the massacres of historic proportion which amounts to a crime against humanity, as well as all other massacres perpetrated by the Syrian regime against the Syrian people around the clock. SNHR holds the Syrian regime and Bashar al-Assad, head of state and Commander-in-Chief of the Syrian regime's army, completely and directly responsible for all of those massacres and their implications and consequences. SNHR calls on the United Nations and the UN Security Council to swiftly take all necessary measures to protect civilians and fulfill their legal and moral responsibilities by accelerating the indictment of all those responsible for the perpetration of these massacres to the International Criminal Court (ICC).
