

## Stament The Death of Yanal Islam by the Government Forces

The Syrian Network for Human Rights has briefed the UN team concerned with extrajudicial killing of the case of the citizen Yanal Islam from Beir Ajam village in Qnaitera province, born in 1984, who was killed by government forces by gunshots when he tried to enter his village to evacuate the sieged people, and asked them to record his case in their records.

The Syrian authorities did not admit killing the citizen, and his family couldn't apply any complaint out of fear of pursuit by the security forces.

SNHR assure its fear of the civilians killings operations since 2011, and the number of deaths is still rising.
