

## Al Bseira Massacre in Deir Ez-Zour and a Statement of Condemnation against its Perpetrators

Al Bseira Massacre in suburbs of Deir Ez-Zour governorate

Syrian regime MiG warplanes bombed al Bseira town with a number of missiles on Tuesday, December 25, 2012, which resulted in the killing of 22 civilian citizens, while about 73 others were injured, including nine critical cases.

We have been able to document 17 victims by names, whereas the remaining five remain unknown, as residents weren't able to recognize them, where they were documented by video. All of this was through directly contacting activists in the area, in addition to speaking to victims' families in some cases.

As a human rights group concerned with defending human rights, we, at SNHR, blatantly condemn this massacre which amounts to a crime against humanity and all massacre that committed against Syrian people on the hour. We also hold the head of the Syrian regime and the Commander in Chief of the Armed Forces Bashar Al Assad responsible for the massacre and the ramifications resulted from it. Also, we demand the Security Council and the United Nations to act quickly to protect civilians in Syria, and they must bear their legal and moral responsibilities and accelerate steps to refer the perpetrators of massacres to the International Criminal Court.
